SUMMARY

Cognitive Science and Business Economics student with experience in marketing operations, analytics consulting, and end-to-end technical builds. Shipped a full-stack predictive web app and an internal analytics automation tool, both from data pipeline to user-facing output, turning ambiguous stakeholder needs into data-backed recommendations.

EDUCATION

University of California, San Diego | *Expected Graduation: Jun 2027* | GPA: 3.7/4.0

B.S. Cognitive Science (Machine Learning & Neural Computation) | B.S. Business Economics | Minor: Business Analytics

Coursework: Data Science · Statistical Analysis · Customer Analytics · Experiments in Firms (A/B Testing) · Business Analytics & Info Tech

SKILLS

- **Programming & Data:** Python (pandas, NumPy, SciPy, scikit-learn), SQL, JavaScript, HTML/CSS, R, Git, MATLAB
 - **Data Science & Modeling:** Regression Modeling, Forecasting, Clustering, NLP/TF-IDF, Statistical Analysis, A/B Testing
 - **Product & Research:** User Testing, Stakeholder Management, End-to-End App Development, Figma
 - **Business & Reporting Tools:** Power BI, Advanced Excel (Automation, Dashboards, Pivot Tables), PowerPoint
-

EXPERIENCE

LMA Marketing & Advertising | *San Diego, CA*

Aug 2026 – Present

Marketing & Project Management Intern

- Identified a recurring bottleneck in client reporting and drove the end-to-end solution: built the company's first client-reporting automation tool, reducing dataset cleaning time **98% (45 min → <1 min)** and shipping client-ready dashboards and decks.
- Analyzed Google Ads and LeadsRx data in Excel (Pivot Tables), translating performance trends into client recommendations.
- Evaluated SEO, site traffic, navigation, and competitor websites to identify UX and content improvement opportunities.

Cornerstone Community Consultants | *San Diego, CA*

Jan 2026 – Present

Business Analytics Consultant Intern

- Leveraged Google Analytics and Squarespace data to identify user drop-off and engagement trends, informing redesign priorities.
- Conducted user testing on Figma prototypes, iterating page hierarchy and booking flows based on feedback.
- Led the website redesign lifecycle, consolidating **24** pages to **8 (67%)** and streamlining the customer journey through launch.
- Delivered final client presentation, translating analytics, user research, and design decisions into recommendations for leadership.

Atkinson Behavioral Research Labs | *La Jolla, CA*

Jan 2025 – June 2025

Research Assistant

- Managed and validated research data operations for **300–400** weekly participants, keeping datasets clean and accurate.
 - Documented data pipelines and turned findings into structured reports for faculty and research teams.
-

PROJECTS

F1 Fantasy Points Predictor & Strategy Dashboard | *Predictive Modeling & Interactive Dashboard* | 2026

- Designed and built an end-to-end F1 fantasy web application that translates race data and performance forecasts into interactive strategy dashboards using Python, JavaScript, and HTML/CSS.
- Created a predictive scoring model using historical driver, circuit, and recent-form signals to project upcoming race performance.
- Engineered a multi-source data pipeline to clean and structure race data for repeatable forecasting and dashboard updates.

Healthcare Spending & Outcomes Model (30+ Countries) | *Data Engineering & Statistical Modeling Project* | 2025

- Cleaned and integrated healthcare data from **30+** countries with a Python pipeline, handling missing values and inconsistencies.
- Standardized multi-source data with pandas and SQL to prepare it for modeling.
- Applied regression modeling to evaluate healthcare spending and outcomes; automated visualizations to communicate findings.

PantryPal: ML Recipe Recommender (TF-IDF + Clustering) | *Machine Learning & Data Pipeline Project* | 2025

- Developed an end-to-end Python pipeline for ingredient ingestion, preprocessing, feature extraction, and recipe retrieval.
 - Implemented TF-IDF vectorization and K-Means clustering to identify patterns in recipe cooking methods, with evaluation metrics to assess representation and cluster selection.
-

LEADERSHIP

Women in Business UCSD: External Events Committee (2024–2025)

- Delivered a professional development conference for 150+ attendees by co-leading logistics, partnerships, and event workflows.

Marketing Director & Treasurer: Melody Connects (2021–2025)

- Raised \$5,000+ for community programs and increased attendee turnout by 34% by designing and executing fundraising campaigns.
